Annual Financial Statements for the financial year ended 30 June 2018

Accounting Officer's Responsibilities and Approval

The Accounting Officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the financial statements and related financial information included in this report. It is the responsibility of the Accounting Officer to ensure that the financial statements fairly present the state of affairs of the municipality as at the end of the financial period and the results of its operations and cash flows for the period then ended.

The financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The Accounting Officer acknowledges that she is ultimately responsible for the system of internal financial control established by the municipality and places considerable importance on maintaining a strong control environment. To enable the Accounting Officer to meet these responsibilities, the Accounting Officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The Accounting Officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the financial statements. However, any system of internal financial control can provide only reasonable assurance, and not absolute, assurance against material misstatement or deficit.

The Accounting Officer has reviewed the municipality's cash flow forecast for the period to 30 June 2018 and, in the light of this review and the current financial position, she is satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

The municipality is wholly dependent on the income from services, rates and grants for continued funding of operations. The financial statements are prepared on the basis that the municipality is a going concern and that the Alfred Duma Local Municipality has neither the intention nor the need to liquidate or curtail materially the scale of the municipality.

The financial statements set out on pages 1 to 59, which have been prepared on the going concern basis, and were approved by the Accounting Officer.

I certify that the salaries, allowances and benefits of Councillors as disclosed in note 24 of these financial statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act (20/1998) and the Minister of Cooperative Governance and Traditional Affairs determination in accordance with this Act.

Accounting Officer
Ms S S Ngiba

Financial Statements for the financial year ended 30 June 2018

Accounting Policies

1. BASIS OF PREPARATION

1.1 BASIS OF PRESENTATION

The financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost conventions as the basis of measurement, except where specified otherwise.

These financial statements have been prepared in accordance with Generally Recognised Accounting Practice (GRAP), including any interpretations and directives issued by the Accounting Standards Board (ASB) in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

Accounting policies for material transactions, events or conditions not covered by the GRAP reporting framework, have been developed in accordance with paragraph 8, 10 and 11 of GRAP 3 (Revised – March 2012) and the hierarchy approved in Directive 5 issued by the Accounting Standards Board.

A summary of the significant accounting policies, which have been consistently applied except where an exemption has been granted, are disclosed below.

Assets, liabilities, revenues and expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP.

1.2 PRESENTATION CURRENCY

These financial statements are presented in South African Rand, which is the functional currency of the municipality.

1.3 GOING CONCERN ASSUMPTION

These financial statements have been prepared on the assumption that the municipality will continue to operate as a going concern for at least the next 12 months.

1.4 COMPARATIVE INFORMATION

Budget information in accordance with GRAP 1 and 24, has been provided in the Statement of Comparison of Budget with Actual Information.

When the presentation or classification of items in the financial statements is amended, prior period comparative amounts are restated. The nature and reason for the reclassification is disclosed. Where accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, with the opening balances have been restated accordingly.

The financial statements comparative information in terms of revenue and expenditure for the previous financial period, is disclosed from the date of establishment of the Alfred Duma Local Municipality for the period 10 August 2016 to 30 June 2017.

Financial Statements for the financial year ended 30 June 2018

Accounting Policies

2. HOUSING OPERATING ACCOUNT (HDF)

The Housing Development Fund was established in terms of the Housing Act, (Act No. 107 of 1997). Loans from national and provincial government used to finance housing selling schemes undertaken by the Municipality were extinguished on 1 April 1998 and transferred to a Housing Development Fund. Housing selling schemes, both complete and in progress as at 1 April 1998, were also transferred to the Housing Development Fund. In terms of the Housing Act, all proceeds from housing developments, which include rental income and sales of houses, must be paid into the Housing Development Fund. Monies standing to the credit of the Housing Development Fund can be used only to finance housing developments within the municipal area subject to the approval of the Provincial MEC responsible for housing.

3. INTERNAL RESERVES

Self Insurance Reserve

The municipality has a Self-Insurance Reserve to set aside amounts to offset potential losses or claims that cannot be insured externally (excess payments). Premiums are charged to the respective services, taking into account, claims history and replacement values of the insured assets. The balance of the self-insurance fund is ring-fenced within the accumulated surplus/(deficit).

The Council determines annually the amount to contribute to the Self Insurance Reserve.

Claims not fully covered by external insurance are financed from the insurance reserve by transferring a corresponding amount from the self-insurance reserve to the accumulated surplus.

The municipality operates a self-insurance scheme under the Self-Insurance Reserve, which has a policy that is aligned with the practice in the Insurance Industry. The balance of the Self-Insurance Reserve is determined based on surpluses accumulated since inception.

These surpluses arise from the differences between premiums charged against claims paid and various administrative expenditure incurred.

At the end of each financial year the surplus as computed per above is transferred from accumulated surplus to Self-Insurance Reserve.

The balance of the self-insurance fund is fully cash backed and is invested in a separate call account.

4. PROPERTY, PLANT AND EQUIPMENT

4.1 INITIAL RECOGNITION

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year. Items of property, plant and equipment are initially recognised as assets on acquisition date and are initially recorded at cost. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

Alfred Duma Local Municipality

(Registration Number KZN 238)

Financial Statements for the financial year ended 30 June 2018

Accounting Policies

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost).

If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

Major spare parts and servicing equipment qualify as property, plant and equipment when the municipality expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant and equipment.

4.2 SUBSEQUENT MEASUREMENT – COST MODEL

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits associated with the asset.

4.3 DEPRECIATION AND IMPAIRMENT

Depreciation is calculated on cost less residual value, using the straight-line method over the estimated useful lives of the assets. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately. Land is not depreciated as it is deemed to have an indefinite useful life.

The annual depreciation rates are based on the following estimated average asset lives: -

DETAILS	YEARS	DETAILS	YEARS
Infrastructure		Other	
Roads and Paving	5 - 100	Buildings	10 – 50
Pedestrian Malls	20	Specialised Vehicles	3 – 20
Electricity	10 – 50	Other Vehicles	3 – 20
Housing	30	Office Equipment	5 – 7
Stormwater	25 – 120	Furniture and Fittings	10
		Watercraft	15
Community		Bins and Containers	5 – 10
Buildings	10 – 50	Specialised Plant and Equipment	5 – 15
Recreational Facilities	10 – 100	Other Items of Plant and Equipment	5 – 15
Security	3 – 5	Landfill sites	15

Alfred Duma Local Municipality

(Registration Number KZN 238)

Financial Statements for the financial year ended 30 June 2018

Accounting Policies

The residual value, the useful life of an asset and the depreciation method is reviewed annually and any changes are recognised as a change in accounting estimate in the Statement of Financial Performance.

The municipality tests for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount (or recoverable service amount), it is written down to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

4.4 DERECOGNITION

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

4.5 INCOMPLETE CONSTRUCTION WORK

Incomplete construction work is stated at historical cost. Depreciation only commences when the asset is available for use.

5. INVESTMENT PROPERTY

Investment property is property (land or a building - or part of a building - or both) held to earn rentals or for capital appreciation or both, rather than for:

- use in the production or supply of goods or services or for
- administrative purposes, or
- sale in the ordinary course of operations.

Owner-occupied property is property held for use in the production or supply of goods or services or for administrative purposes.

Investment property is recognised as an asset when, it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the municipality, and the cost or fair value of the investment property can be measured reliably.

Investment property is initially recognised at cost. Transaction costs are included in the initial measurement.

Where investment property is acquired at no cost or for a nominal cost, its cost is its fair value as at the date of acquisition.

Costs include costs incurred initially and costs incurred subsequently to add to, or to replace a part of, or service a property. If a replacement part is recognised in the carrying amount of the investment property, the carrying amount of the replaced part is derecognised.

5.1 FAIR VALUE

Subsequent to initial measurement investment property is measured at fair value.

The fair value of investment property reflects market conditions at the reporting date.

A gain or loss arising from a change in fair value is included in net surplus or deficit for the period in which it arises.

Alfred Duma Local Municipality

(Registration Number KZN 238)

Financial Statements for the financial year ended 30 June 2018

Accounting Policies

If the fair value of investment property under construction is not determinable, it is measured at cost until the earlier of the date it becomes determinable or construction is complete.

6. INTANGIBLE ASSETS

An asset is identified as an intangible asset when it:

- is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, assets or liability; or
- arises from contractual rights or other legal rights, regardless whether those rights are transferable or separate from the municipality or from other rights and obligations.

An intangible asset is recognised when:

- it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality; and
- the cost or fair value of the asset can be measured reliably.

Intangible assets are initially recognised at cost.

An intangible asset acquired at no or nominal cost, the cost shall be its fair value as at the date of acquisition.

Expenditure on research (or on the research phase of an internal project) is recognised as an expense when it is incurred.

An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- it is technically feasible to complete the asset so that it will be available for use or sale.
- there is an intention to complete and use or sell it.
- there is an ability to use or sell it.
- it will generate probable future economic benefits or service potential.
- there are available technical, financial and other resources to complete the development and to use or sell the asset.
- the expenditure attributable to the asset during its development can be measured reliably.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight-line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result, the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Alfred Duma Local Municipality

(Registration Number KZN 238)

Financial Statements for the financial year ended 30 June 2018

Accounting Policies

Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets.

Amortisation is provided to write down the intangible assets, on a straight-line basis, to their residual values as follows:

Item	Useful life
Servitudes	indefinite
Software	3 years

7. HERITAGE ASSETS

Heritage assets are assets that have a cultural, environmental, historical, natural, scientific, technological or artistic significance and are held indefinitely for the benefit of present and future generations.

7.1 INITIAL RECOGNITION

A heritage asset that qualifies for recognition as an asset is measured at its cost and any costs directly attributable to bringing the heritage asset to the location and condition necessary for it to be capable of operating in the manner intended by the Municipality.

Where a heritage asset is acquired through a non-exchange transaction, its deemed cost is to be measured at its fair value as at the date of acquisition.

7.2 SUBSEQUENT MEASUREMENT

Subsequent to initial recognition, heritage assets are measured at cost less accumulated impairment losses.

7.3 DEPRECIATION AND IMPAIRMENT

Heritage assets are not depreciated but assessed at each reporting date whether there is an indication that it may be impaired.

7.4 DERECOGNITION

Heritage assets are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use or disposal of the asset. The gain or loss arising on the disposal or retirement of a heritage asset is recognised in the Statement of Financial Performance.

8. IMPAIRMENT OF ASSETS

8.1 CASH GENERATING ASSETS

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the municipality estimates the recoverable amount of the asset.

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount

Accounting Policies

of the individual asset, the recoverable amount of the cash-generating unit to which the asset belongs is determined.

The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortization is recognized in surplus or deficit.

An impairment loss is recognized for cash-generating units if the recoverable amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit as follows:

- To the assets of the unit, pro-rata on the basis of the carrying amount of each asset in the unit.

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognized in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortization is recognized in surplus or deficit.

8.2 NON-CASH GENERATING ASSETS

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the municipality estimates the recoverable service amount of the asset.

If there is any indication that an asset may be impaired, the recoverable service amount is estimated for the individual asset. If it is not possible to estimate the recoverable service amount of the individual asset, the recoverable service amount of the cash-generating unit to which the asset belongs is determined.

The recoverable service amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortization is recognized in surplus or deficit.

Alfred Duma Local Municipality

(Registration Number KZN 238)

Financial Statements for the financial year ended 30 June 2018

Accounting Policies

An impairment loss is recognized for non-cash generating units if the recoverable service amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit as follows:

- To the assets of the unit, pro-rata on the basis of the carrying amount of each asset in the unit.

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognized in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable service amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortization is recognized in surplus or deficit.

9. INVENTORIES

9.1 INITIAL RECOGNITION

Inventories comprise current assets held for sale in terms of land, and consumable items for consumption or distribution during the ordinary course of business. Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus taxes, transport costs and any other costs in bringing the inventories to their current location and condition. Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where inventory is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

9.2 SUBSEQUENT MEASUREMENT

Inventories, consisting of consumable stores, raw materials, work-in-progress and finished goods, are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost. Redundant and slow-moving inventories are identified and written down in this way. Differences arising on the valuation of inventory are recognised in the Statement of Financial Performance in the year in which they arose. The amount of any reversal of any write-down of inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

In general, the basis of allocating cost to inventory items is the weighted average method.

Accounting Policies

10. FINANCIAL INSTRUMENTS

10.1 INITIAL RECOGNITION

Financial instruments are initially recognised at fair value.

10.2 SUBSEQUENT MEASUREMENT

Financial Assets are categorised according to their nature as either financial assets at fair value through profit or loss, held-to maturity, loans and receivables, or available for sale.

Financial liabilities are categorised as either at fair value through profit or loss or financial liabilities carried at amortised cost ("other"). The subsequent measurement of financial assets and liabilities depends on this categorisation and, in the absence of an approved GRAP Standard on Financial Instruments, is in accordance with IAS 39.

10.2.1 INVESTMENTS

Investments, which include listed government bonds, unlisted municipal bonds, fixed deposits and short-term deposits invested in registered commercial banks, are categorised as either held-to-maturity where the criteria for that categorisation are met, or as loans and receivables, and are measured at amortised cost.

Where investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified. Impairments are calculated as being the difference between the carrying amount and the present value of the expected future cash flows flowing from the instrument. On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Financial Performance.

10.2.2 TRADE AND OTHER RECEIVABLES

Trade and other receivables are categorised as financial assets: loans and receivables and are initially recognised at fair value and subsequently carried at amortised cost. Amortised cost refers to the initial carrying amount, plus interest, less repayments and impairments. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year-end. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. Impairments are determined by discounting expected future cash flows to their present value. Amounts that are receivable within 1 month from the reporting date are classified as current.

An impairment of trade receivables is accounted for by reducing the carrying amount of trade receivables through the use of an allowance account, and the amount of the loss is recognised in the Statement of Financial Performance within operating expenses. When a trade receivable is uncollectible, it is written off. Subsequent recoveries of amounts previously written off are credited against operating expenses in the Statement of Financial Performance.

10.2.3 TRADE PAYABLES AND BORROWINGS

Financial liabilities consist of trade payables and borrowings. They are categorised as financial liabilities held at amortised cost, are initially recognised at fair value, less trade discounts, if applicable, and subsequently measured at

Alfred Duma Local Municipality

(Registration Number KZN 238)

Financial Statements for the financial year ended 30 June 2018

Accounting Policies

amortised cost which is the initial carrying amount, less repayments, plus interest.

10.2.4 CASH AND CASH EQUIVALENTS

Cash includes cash on hand (including petty cash) and cash with banks (including call deposits). Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash that are held with registered banking institutions with maturities of four months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks, net of bank overdrafts. The municipality categorises cash and cash equivalents as financial assets: loans and receivables.

11. UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

12. IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

13. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

14. PROVISIONS

Provisions are recognised when the municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at reporting date and adjusted to reflect the current best estimate. Where the effect is material, non-current provisions are discounted to their present value using a pre-tax discount rate that reflects the market's current assessment of the time value of money, adjusted for risks specific to the liability (for example in the case of obligations for the rehabilitation of land).

The municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is disclosed where an inflow of economic benefits is probable.

Alfred Duma Local Municipality

(Registration Number KZN 238)

Financial Statements for the financial year ended 30 June 2018

Accounting Policies

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

15. LEASES

15.1 Finance Leases – The Municipality as Lessee

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality. Property, plant and equipment or intangible assets subject to finance lease agreements are initially recognised at the lower of the asset's fair value and the present value of the minimum lease payments. The corresponding liabilities are initially recognised at the inception of the lease and are measured as the sum of the minimum lease payments due in terms of the lease agreement, discounted for the effect of interest. In discounting the lease payments, the municipality uses the interest rate that exactly discounts the lease payments and unguaranteed residual value to the fair value of the asset plus any direct costs incurred.

Subsequent to initial recognition, the leased assets are accounted for in accordance with the stated accounting policies applicable to property, plant, equipment or intangibles. The lease liability is reduced by the lease payments, which are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred. The accounting policies relating to derecognition of financial instruments are applied to lease payables. The lease asset is depreciated over the shorter of the asset's useful life or the lease term.

15.2 Operating Leases – The Municipality as Lessee

Leases where the lessor retains substantially all the risks and rewards of ownership are classified as operating leases. Payments made under operating leases are charged to the statement of financial performance on a straight-line basis over the period of the lease.

15.3 Operating Leases – The Municipality as Lessor

Assets leased to third parties under operating leases are included in investment properties and property, plant and equipment in the statement of financial position. They are depreciated over their expected useful lives on a basis consistent with similar owned investment properties and property, plant and equipment, where applicable. Rental income is recognized over the lease term.

16. REVENUE

16.1 REVENUE FROM EXCHANGE TRANSACTIONS

Revenue from exchange transactions refers to revenue that accrued to the municipality directly in return for services rendered / goods sold, the value of which approximates the consideration received or receivable.

Accounting Policies

Service charges relating to electricity are based on consumption. Meters are read on a monthly basis and are recognised as revenue when invoiced. Provisional estimates of consumption are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period.

Revenue from the sale of electricity prepaid meter cards is recognised at the point of sale.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on the recorded number of refuse containers per property.

Interest revenue is recognised on a time proportion basis.

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant gazetted tariff. This includes the issuing of licences and permits.

Revenue from the sale of goods is recognised when substantially all the risks and rewards in those goods are passed to the consumer.

Revenue arising out of situations where the municipality acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the municipality as compensation for executing the agreed services.

16.2 REVENUE FROM NON-EXCHANGE TRANSACTIONS

Revenue from non-exchange transactions refers to transactions where the municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportionate basis.

Fines constitute both spot fines and summonses. Fines are economic benefits or service potential received or receivable by the municipality as a consequence of the individual or entity breaching the requirements of laws or regulations.

The full amount of traffic fines issued during the year is recognized at the initial transaction date as revenue in accordance with IGRAP1.

Assessing and recognizing impairment is an event that takes place subsequent to the initial recognition of revenue charged. The municipality assesses the probability of collecting revenue when accounts fall into arrears based on historic trends.

Revenue from public contributions and donations is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment

Alfred Duma Local Municipality

(Registration Number KZN 238)

Financial Statements for the financial year ended 30 June 2018

Accounting Policies

qualifies for recognition and first becomes available for use by the municipality. Where public contributions have been received but the municipality has not met the related conditions, the revenue is recognized as unspent grants, as current liabilities.

Contributed property, plant and equipment is recognised when such items of property, plant and equipment qualifies for recognition and become available for use by the municipality.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

16.3 GRANTS, TRANSFERS AND DONATIONS

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred meet the criteria for recognition as an asset. A corresponding liability is raised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met. Grants without any conditions attached are recognised as revenue when the asset is recognised.

The Municipality acts as an agent in a principal / agent relationship with the Department of Human Settlement for the construction of RDP Houses. Transfers are made to the Municipality for approved housing projects from the Department of Human Settlement, and the Municipality releases payments from these transfers to the Implementing Agent for construction of RDP Houses. The transfers are recognized as Unspent Conditional Grants and Receipts in the Statement of Financial Position, and the revenue is only recognized in the Statement of Financial Performance once payments to the Implementing Agents are made upon handover of the houses to the beneficiaries.

17. BORROWING COSTS

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalised to the cost of that asset unless it is inappropriate to do so. The municipality ceases the capitalisation of borrowing costs when substantially all the activities to prepare the asset for its intended use or sale are complete. It is considered inappropriate to capitalise borrowing costs where the link between the funds borrowed and the capital asset acquired cannot be adequately established. Borrowing costs incurred other than on qualifying assets are recognised as an expense in surplus or deficit when incurred.

18. RETIREMENT BENEFITS

The municipality provides retirement benefits for its employees and councillors. The contributions to fund obligations for the payment of retirement benefits are charged against revenue in the year they become payable. The defined benefit funds, which are administered on a provincial basis, are actuarially valued triennially on the projected unit credit method basis. Deficits identified are recognised as a liability and are recovered through lump sum payments or increased future contributions on a proportional basis to all participating municipalities. Specific actuarial information in respect of individual participating municipalities is unavailable due to centralised administration of these funds. As a result, defined benefit plans have been accounted for as if they were defined contribution plans.

Alfred Duma Local Municipality

(Registration Number KZN 238)

Financial Statements for the financial year ended 30 June 2018

Accounting Policies

Other post-employment benefit obligations

The municipality provides post-retirement healthcare benefits to its retirees. The entitlement to these benefits is usually conditional on the employee remaining in service up to retirement age and the completion of a minimum service period. This benefit has since been restricted to persons 50 years and older of age as at 1 July 2005. The contributions to fund obligations for the payment of retirement benefits are charged against revenue in the year they become payable. The expected costs of these benefits will be accrued over the period of employment using an accounting methodology similar to that used for defined benefit pension plans. Actuarial gains and losses arising and changes in actuarial assumptions, are charged or credited to income over the expected average remaining working lives of the relevant employees.

19. KEY SOURCES OF ESTIMATION, UNCERTAINTY AND JUDGEMENTS

In preparing the financial statements, management is required to make estimates and assumptions that affect the amounts represented in the financial statements and related disclosures, use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the financial statements. Significant judgements include:

Trade Receivables

The municipality assesses its trade receivables for impairment at the end of each financial year for non-collectability. In determining whether an impairment should be recorded in surplus or deficit. Judgements are made as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

Provisions

Provisions were raised and management used experts to determine an estimate based on information available. Additional disclosure of these estimates of provisions are included in note 4 on Provisions.

Post Retirement Benefits

The present value of the post retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. Any changes in these assumptions will impact on the carrying amount of post retirement obligation.

The municipality obtains an actuarial valuation of its post retirement healthcare benefit and disclosure of this obligation is included in note 5 on Retirement Benefit Obligations.

Allowance for Doubtful Debts

On debtors an impairment loss is recognised where there is objective evidence that it is impaired. The impairment is measured as the difference between the debtors carrying amount and the present value of estimated future cash flows. In making the estimation of the impairment, management of the municipality considered the detailed criteria of impairment of financial assets as set out in IAS 39 – *Financial Instruments – Recognition and Measurement*.

Useful Lives of Property, Plant and Equipment

The municipality depreciates / amortises its property, plant and equipment, investment property and intangible assets over the estimated useful lives of the assets, taking into account the

Alfred Duma Local Municipality

(Registration Number KZN 238)

Financial Statements for the financial year ended 30 June 2018

Accounting Policies

residual values of the assets at the end of their useful lives, which is determined when assets are available for use. The useful lives and residual lives are based on industry standards.

Impairment of Property, Plant and Equipment & Inventory

Estimates and judgements are made relating to property, plant and equipment for impairment testing and write-down of inventories to net realisable value as described in accounting policy 9 and 15 respectively.

20. RELATED PARTIES

Individuals as well as their close family members, and/or entities are related parties if one party has the ability, directly or indirectly, to control or jointly control the other party or exercise significant influence over the other party in making financial and/or operating decisions. Key management personnel are defined as the Municipal Manager, Chief Financial Officer, and all other managers reporting directly to the Municipal Manager or as designated by the Municipal Manager.

21. COMMITMENTS

Commitments are future expenses and liabilities to be incurred on contracts that have been entered into at the reporting date.

The amount of capital commitments and other operating commitments contracted for at the reporting date, and which have not been recognised as liabilities are disclosed by way of note.

22. BUDGET INFORMATION

The budget figures have been prepared in accordance with the GRAP standards, and are consistent with the accounting policies used for the preparation of these financial statements. The amounts are scheduled as separate additional columns in the Statement of Comparison of Budget with Actual Information. These figures are those approved by the Council at the beginning and during the year following a period of consultation with the public as part of the Integrated Development Plan (IDP).

23. EVENTS AFTER THE REPORTING DATE

Events after the reporting date that are classified as adjusting events have been accounted for in the Financial Statements. The events after the reporting date that are classified as non-adjusting events after the reporting date have been disclosed in the notes to the Financial Statements.

Unappropriated Surplus/(Deficit)	-16 718 003	-18 850 360
Loans extinguished by Government on 1 April 1998	47 124 502	47 124 502
	30 406 499	28 274 142

The Housing Operating Account is represented by the following assets and liabilities:

Housing selling scheme loans	2 649 865	2 856 085
Bank and cash	27 756 635	25 418 058
	30 406 499	28 274 142

2. Long-term Loans

Loans	6 745 273	7 282 446
Less : Current portion transferred to current liabilities	-579 003	-534 661
	6 166 271	6 747 784

Refer to Appendix A for more detail on long-term loans

3. Consumer Deposits

Electricity	10 112 325	9 997 798
Refuse	5 287 928	680 665
	15 400 252	10 678 463

Interest is not paid on Consumer Deposits

Guarantees held in lieu of Electricity Deposits totals R 7 139 425 (2017: R 6 394 855)

4. Provisions

Non-Current

4.1 Environmental Rehabilitation

Ladysmith Waste Disposal Site

Balance at beginning of period	36 248 893	30 072 155
Contribution to provision	7 528 525	6 176 739
	43 777 418	36 248 893

Indaka Waste Disposal Site

Balance at beginning of period	9 139 176	1 799 373
Change in provision	-6 344 100	7 339 803
	2 795 076	9 139 176
	46 572 495	45 388 070

Provision for reclamation of refuse landfill sites. In terms of the licencing of the refuse landfill sites, council will incur rehabilitation estimation costs of R 46 572 495, calculated as at 30 June 2018, (2017: R 45 388 070) to restore the sites at the end of their respective useful life.

The calculation is based on the total actual area of the Landfill sites which is in use and unrehabilitated multiplied by the last known actual rehabilitation cost per hectare escalated to current cost.

4. Provisions (Continued)

Current

4.2 Performance Bonuses

Balance at beginning of period	700 141	529 650
Contribution to provision	657 524	714 010
Expenditure incurred	-	-543 519
	1 357 666	700 141

Performance bonuses are paid to the Municipal Manager and Section 56 Managers after an evaluation by the Council. No bonuses were paid during the 2017/2018 financial year. The bonuses relating to the 2016/2017 financial year performance outcomes were paid on 31 July 2018 totalling R 607 361.

4.3 Long Service Awards

The Long Service Awards is a defined benefit plan. The Municipality offers employees Long Service Awards for every five years of continuous service completed, from 10 years to 45 years of service, inclusive. As at 30 June 2018, 813 (2017: 797) employees were eligible for Long Service Awards.

Completed Service (in years)	Long Service Bonuses (% of Annual Salary)	Description
10	4.0%	10 / 250 x Annual Salary
15	8.0%	20 / 250 x Annual Salary
20, 25, 30, 35, 40, 45	12.0%	30 / 250 x Annual Salary

In the month that each "Completed Service" milestone is reached, the employee is granted a Long Service Award. Working days awarded are valued at 1/250th of annual salary per day.

The amounts recognised on the Statement of Financial Position are as follows:

Fair Value of Plan Assets		
Accrued Liability	9 617 985	8 464 580
Unfunded Accrued Liability	9 617 985	8 464 580
Unrecognised Transitional Liability	-	-
Unrecognised Actuarial Gains/(Losses)	-	-
Unrecognised Past Service Cost	-	-
Net Liability in Statement of Financial Position	9 617 985	8 464 580

Movement in the Defined Benefit Obligation recognised in the Statement of Financial Position:

Opening liability	8 464 580	8 576 187
Current service cost	872 937	898 363
Interest cost	689 721	685 432
Actual benefits paid	-564 012	-1 284 941
Actuarial loss / (gain)	154 759	-410 461
Closing Balance	9 617 985	8 464 580
Current Portion of Liability	1 385 778	598 554
Non-Current Portion of Liability	8 232 207	7 866 026
	9 617 985	8 464 580

The amounts recognised in the Statement of Financial Performance are as follows:

Current service cost	872 937	898 363
Interest cost	689 721	685 432
Actuarial loss / (gain) recognised	154 759	-410 461
Total included in Statement of Financial Performance	1 717 417	1 173 334

5. Retirement Benefit Obligations

Post-Retirement Medical Aid Plan

The Municipality offers employees and continuation members the opportunity of belonging to one of several medical schemes, most of which offer a range of options pertaining to levels of cover.

Upon retirement, an employee may continue membership of the medical scheme. Upon a member's death-in-service, or death-in-retirement, the surviving dependants may continue membership of the medical scheme.

Eligible employees will receive a post-employment subsidy of 60% of the contribution payable should they be a member of a medical scheme at retirement and if they were aged 55 or older on 1 January 2005.

The subsidy will be 50% for those in-service members who were aged between 50 and 55 on 1 January 2005. Other in-service members do not qualify for the post-employment subsidy.

If an employee chooses to take early retirement, he or she must be at least 55 years of age at the time of retirement and have at least 25 continuous years' service, provided they are eligible as at 1 January 2005, as per above.

The total in-service employees belonging to Medical Schemes as at 30 June 2018 were 2 (2017: 4) and the total continuation employees receiving the medical benefit as at 30 June 2018 were 67 (2017: 68).

The amounts recognised on the Statement of Financial Position are as follows:

Present value of obligations	28 178 688	29 897 013

Employee Benefits / Accruals	24 035 934	22 058 923
Payments Received in Advance i.r.o. Service Debtors	20 760 281	13 254 672
	151 621 176	179 196 011

Trade Creditors are valued at fair value as creditors are paid 30 days from date of statement.

Trade payables are non-interest-bearing and normally settled on 30-day terms, except retentions that could be settled after 12 months. Payments received in advance are non-interest bearing and normally settled on 30-day terms.

Management policies are in place to ensure that all payables are paid within a reasonable timeframe, as stipulated in the MFMA, to ensure sound financial risk management.

Refer to Appendix B for more detail on property, plant and equipment.

Infrastructure Assets and Community Assets

Physical verification and valuation

- Infrastructure assets were physically verified during the 2017/2018 financial year. During this process the asset location, condition and maintenance history was recorded and evaluated.

Capital Under Construction

There are currently 12 projects listed as Capital Under Construction as at 30 June 2018, however the 2 projects listed below are delayed or taking longer than expected to complete:

- Construction of the Ezakheni Sports Complex : Amount disclosed in PPE - R 20 724 611

This project has had significant delays in completion due to the termination of contracts for appointed contractors, who have failed to complete the project and have not met the correct specifications in terms of the project.

- Ennambithi Indoor Sports Complex : Amount disclosed in PPE - R 5 115 727

This is a longer term project and the planning and study phase of this project has been completed.

Repairs and Maintenance

Repairs and maintenance are costs related to the repair and maintenance of Council owned Property, Plant and Equipment during the period.

Included in repairs and maintenance are the following:

Payments to service providers - Contracted Services	5 169 457
Materials used from Inventory - General Expenses - Consumable Stores	12 938 610
Employee costs charged to repairs and maintenance - Remuneration of Employees	37 980 552
Transport costs charged to repairs and maintenance - General Expenses	9 873 339
	65 961 958

A register containing the information required by section 63 of the Municipal Finance Management Act is available for inspection at the registered office of the municipality.

The fair value of the above properties is R 208 456 671. Investment properties have been valued in accordance with the municipal valuation roll and has been adjusted to take into account current market conditions.

The last effective date of the fair value adjustments was June 2018. The valuations were performed by a Professional Valuer. The valuation was based on the estimated amount for which an asset should exchange on the date of valuation between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. The municipal valuer has extensive experience in the location and category of investment property valued with the necessary qualifications.

Investment Property was rented / leased during the period and rental income of was recognised and disclosed in the Statement of Financial Performance as Rental of facilities and equipment.

There were no direct expenses related to investment property, including repairs and maintenance, for this financial period.

The Municipality accounts for Heritage Assets under GRAP 103.

Subsequent to initial recognition, heritage assets are measured at cost less accumulated impairment losses. These assets were assessed for impairment during the 2017/2018 financial year.

13. Self-Insurance Fund

Opening balance	13 450 360	12 436 552

Other	367 954	12 219
Total Property Valuations	17 184 472	12 069 484

Valuation on land and buildings is performed every four years. The last valuation came into effect on 1 July 2017.

Supplementary valuations are processed on a ad-hoc basis to take into account changes in individual property values due to change in use, alterations, consolidations and subdivisions.

The following property allocation factors (rate) are applied to the various categories of property to determine assessment rates less the impermissible valuation allowed :

Category	Rate	Impermissible Valuation
Residential	R 0.01138	100 000
Commercial / Business	R 0.01996	-
Industrial	R 0.01284	-
Agriculture	R 0.00277	-
Vacant Land	R 0.04109	-
State	R 0.02513	-

Rates are levied on a monthly basis on property owners with the final date of payment being 30 June 2018.

	282 786 253	297 538 072

The Municipality received INEP funding for Electrification Projects which are in the Eskom serviced areas. The grant utilised in the amount of R 15 000 000 as at 30 June 2018 (2017: R 11 617 960) is not recognised in the Statement of Financial Performance, as the projects are carried out on behalf of Eskom.

The Municipality received Housing Funds for Low Cost Housing Projects and Title Deeds Transfers. The grant is not recognised in the Statement of Financial Performance, as these projects are carried out on behalf of the Department of Human Settlement.

22.1 Equitable Share

In terms of the Constitution, this grant is used to subsidise the provision of basic services to indigent community members. All residents may apply for indigency in terms of the Municipality's Indigent Policy. For the 2017/2018 financial year, the amount transferred was R 237 748 less than the allocation gazetted. National Treasury was consulted as the amount was incorrectly withheld in terms of the prior year opening balance that was regarded as unspent in terms of the FMG and EPWP Grants. The amount was actually advance spending in terms of these grants prior to the establishment of the Alfred Duma Local Municipality.

22.2 Municipal Infrastructure Grant (MIG)

Balance unspent at beginning of period	-	-
Current year receipts	62 749 000	70 353 000
Conditions met - transferred to revenue (Other)	-62 749 000	-70 353 000
Conditions still to be met - transferred to liabilities	-	-

This grant is utilised to construct roads and bridges, sportsfields, community halls and streetlighting as part of the upgrading of informal settlement areas (included in the votes in Appendix B). No funds have been withheld.

22.3 Department of Human Settlement

Balance unspent at beginning of period	14 471 297	14 471 297
Current year receipts	32 369 002	-
Conditions met	-2 599 675	-
Conditions still to be met - transferred to liabilities	44 240 623	14 471 297

This grant is utilised to construct houses and transfer Title Deeds as part of Low Cost Housing Projects. The grant utilised in the amount of R 2 599 675 (2017: R 0) is not transferred to revenue, as the projects are carried out on behalf of the Department of Human Settlement.

30. Unauthorised, Irregular, Fruitless and Wasteful Expenditure

30.1 Unauthorised Expenditure

Opening balance	125 196 084	424 706
Unauthorised expenditure current year	26 135 469	124 771 378
Approved by council or condoned	-125 196 084	-
Transfer to receivables for recovery - not condoned	-	-
Unauthorised expenditure awaiting authorisation	<u>26 135 468</u>	<u>125 196 084</u>
Depreciation and Impairment Cost - Former Indaka Municipality	-	424 706
Payment ordered by Court to Service Provider - Former Indaka Municipality	-	1 646 343
Bad debts contribution to receivables	-	16 076 097
Depreciation	9 523 083	67 993 041
Contracted services	16 612 386	4 256 267
Impairment cost of PPE	-	28 619 592
Loss on disposal of PPE	-	2 164 202
Inventories: Write-down to net realisable value	-	605 454
General expenses	-	3 410 382
	<u>26 135 469</u>	<u>125 196 084</u>

Council noted Unauthorised Expenditure of R 16 612 386 at a Council meeting held on 26 July 2018.

30.2 Irregular Expenditure

Opening balance	168 481 279	142 651 484
Irregular expenditure current year	14 620 902	25 829 795
Written Off	-	-
Transfer to receivables for recovery - not condoned	-	-
Irregular expenditure awaiting authorisation	<u>183 102 181</u>	<u>168 481 279</u>
Irregular expenditure is related to the non-adherence of Supply Chain Management procedures.		
- Non-compliance with the PPPFA Regulation	1 017 420	1 017 420
- Persons in the service of the state	2 754 852	961 161
- Non-compliance with the SCM Regulations	179 329 909	166 502 698
Written Off	-	-
	<u>183 102 181</u>	<u>168 481 279</u>

All Irregular Expenditure has been reported to Council and to National Treasury during the 2017/2018 financial year.

30.3 Fruitless and Wasteful Expenditure

Opening balance	6 898 520	6 317 223
Fruitless and Wasteful expenditure current year	101 045	581 297
Approved by council or condoned	-	-
Recovered	-	-
Transfer to receivables for recovery - not condoned	-	-
Fruitless and Wasteful expenditure awaiting authorisation	<u>6 999 565</u>	<u>6 898 520</u>

Fruitless and Wasteful expenditure is related to expenditure that was made in vain and would have been avoided had reasonable care been exercised.

Fruitless and Wasteful Expenditure incurred in the current year of R 101 045, relates to interest charges on late payment of Invoices to various service providers.

Investigations and Disciplinary Actions have been taken against employees during the 2017/2018 financial year related to Fruitless and Wasteful Expenditure. Outcomes are awaited in terms of recovery and will be reported accordingly.

	5 363 872	6 396 831

34. Retirement Benefit Information

Defined Contribution Plan

The following are defined contribution plans. These are not treated as defined benefit plans as defined by IAS 19, but are accounted for as defined contribution plans. This is in line with the exemption in IAS 19 par.30 which states that where information required for proper defined benefit plan accounting is not available in respect of multi-employer and state plans, these should be accounted for as defined contribution plans. This municipality has been unsuccessful in obtaining the necessary information to support proper defined benefit plan accounting due to restrictions imposed by the multi-employer plan. It is therefore deemed impracticable to obtain this information at a suitable level of detail.

Natal Joint Municipal Pension Fund (Superannuation)

The total rate of contribution by the municipality, including the surcharge, is 31,13% (21,63% plus the surcharge of 9,5%) of pensionable salaries and the surcharge is for a period of 8 years with effect from 1 August 2012, which is subject to change.

Natal Joint Municipal Pension Fund (Retirement)

The total rate of contribution by the municipality, including the surcharge, is 34,12% (18,37% plus the surcharge of 17,5% less 1,65%) of pensionable salaries and the surcharge is for a period of 8 years with effect from 1 August 2012.

Natal Joint Municipal Provident Fund

The total rate of contribution by the municipality of pensionable salaries varies with 9,75%, 13,65% and 18,00% of pensionable salaries.

35. Councillor's Arrear Consumer Accounts

No Councillor(s) had arrear accounts over 90 days during the financial period ending 30 June 2018.

36. Related Parties

Key Management Personnel and Councillors Remuneration

Remuneration of Key Management Personnel and Councillors is set out in Notes 24 and 25 respectively to the Financial Statements.

37. Risk Management

Financial Risk Management

The municipality's activities exposes it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The municipality's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects of the municipality's financial performance.

Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying businesses, municipality treasury maintains flexibility in funding by maintaining availability under committed credit lines.

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities. Cash Flow forecasts are prepared and utilised borrowing facilities are monitored.

Interest Rate Risk

The municipality's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the municipality to cash flow interest rate risk.

Credit risk

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

Trade receivables comprise a widespread customer base. Management evaluated credit risk relating to customers on an ongoing basis. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by management. The utilisation of credit limits is regularly monitored. Sales to retail customers are settled in cash or using major credit cards.

Credit guarantee insurance is purchased when deemed appropriate.

The Municipality was sued for motor vehicle damages.
The plaintiff has filed for judgement and the court has not granted it as yet.
Case No. 520/2016

21 010

21 010

The Municipality was sued for damages involving a minor falling into a trench.
The Municipality is defending the claim and the matter has not been set down for trial as yet.
Case No. 9222/2010

985 000

985 000

The Municipality was sued for outstanding payments to a service provider.
The Municipality is defending the claim and the case is at discovery stage, and awaiting trial.
Case No. 6040/2015

1 900 000

1 900 000

The Municipality was sued for damages to private property by a tree situated on municipal property.
The claim is currently being actioned by the Municipality's Insurers.
Case No. 217/2017

6 385

6 385

The Municipality was sued for damages to property.
The claim has been referred to the Municipality's Insurers.
Case No. 628/2018

36 547

3 483 805

3 447 258

38.2 Contingent Assets

The Municipality identified the following contingent asset:

A case of alleged fraudulent transactions and theft of money, during the month of January 2016 and prior months, by a Cashier in the Revenue Section in the Department of Finance, had been detected and reported.

==

1 465 181

A case of fraud was opened at the South African Police Services on 3 May 2016 as per Case No. 32/5/2016. The South African Police Services charged the former employee with fraud and the case was settled on 11 June 2018. The former employee has entered into an agreement to repay the full amount over a period of 5 years to the Municipality, as part of the sentence.
The Municipality has raised a debtor for this amount in June 2018.

39. Budget Information

The budget is approved on an accrual basis by nature and vote classification. The approved budget covers the period from 1 July 2017 to 30 June 2018.

The budget and accounting bases are the same, both are on the accrual basis. The financial statements are prepared using a classification on the nature of income and expenses in the statement of financial performance.

Refer to Appendix C for more detail on budget and actual information with an explanation of material differences between the budget and actual amounts by nature classification.

Refer to Appendix D for classification of actual information by vote.

40. Change In Accounting Estimate

The residual value, the useful life of an asset and the depreciation method is reviewed annually and any changes are recognised as a change in accounting estimate in accordance with the Standard of GRAP on accounting policies, changes in accounting estimates and errors.

The Municipality has assessed the remaining useful lives of property, plant and equipment which resulted in a change of certain asset's remaining useful lives.

The effect of the change in accounting estimate has resulted in an increase in depreciation amounting to R 0 for the current period.

Infrastructure Assets	31 036 302
Community Assets	27 378 701
Other Assets	15 402 741
	<u>73 817 744</u>

41. Key Sources of Estimation Uncertainty and Judgements

The following areas involve a significant degree of estimation uncertainty:

Useful lives and residual values of property, plant, and equipment		
Recoverable amounts of property, plant and equipment	2 166 144 651	2 274 562 773
Provision for rehabilitation of landfill site (discount rate, no. of years, amount of cash flows)	46 572 495	45 388 070
Present value of post retirement benefit obligation	28 178 688	29 897 013
Present value of long service awards	9 617 985	8 464 580
Provision for performance bonus	1 357 666	700 141
Provision for doubtful debts	216 400 072	177 163 455
Impairment of assets	-485 756	30 384 768
Investment property	208 456 671	114 576 550
Inventory assets held for sale	20 554 341	23 294 462

The following areas involved judgements, apart from those involving estimations disclosed above, that management has made in the process of applying the municipality's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

Impairment of assets	-485 756	30 384 768
